

Applied Physics Research Grading Policy

Grades:

Grades are recorded as points and converted to percentages and then to letters for the report card grades by dividing the number of points earned by the number of points possible multiplied by the grade type weight. The letter grade that appears on your report card follows the following grading scale (unless otherwise noted):

A	Α-	B+	В	B-	C+	С	C-	D+	D	F
≥93	92 - 90	89 - 87	86 - 83	82 - 80	79 - 77	76 - 73	72 - 70	69 - 67	66 - 64	<64

Grades will be weighted based on the following scale:

Class Participation	30%
Journals	10%
Labwork & Papers	40%
Presentations	20%

Late and Missing Work:

Any work that is turned in after the stated due date will be considered late unless you have received an extension as noted below. Missing work will result in a 0% until it is turned in at which point the deduction scale will be applied. Late work will only be accepted up until **2 days** before the end of the grading period and will be graded as follows:

	1 Day	2 Days	3 Days	>3 Days
Deduction	10%	25%	50%	50%

Extension Requests:

There may be a time where an extenuating circumstance prevents you from turning in your work by the stated due date. If this is the case, you may request an extension.. **Requesting an extension does not mean you will receive one.** The scope and scale of the extension is determined per instance and is left to the discretion of the teacher.

Extensions must be requested no less than **24 hours before** the stated due date. Extension requests made within the 24 hour period in which the work is due will be disregarded.

As always, if you have any questions or concerns regarding this policy, feel free to email me at george.heim@prismsus.org.
